2417 JERICHO TURNPIKE, #333, GARDEN CITY PARK, NY 11040 (USA)
TEL: 800.330.1322 | 516.358.2180 FAX: 800.260.7177 | 516.358.2182 EMAIL: sales@GerMedUSA.com

New Products

G28-100
Diamond Retractor 20cm

G28-110
Diamond Retractor 15cm

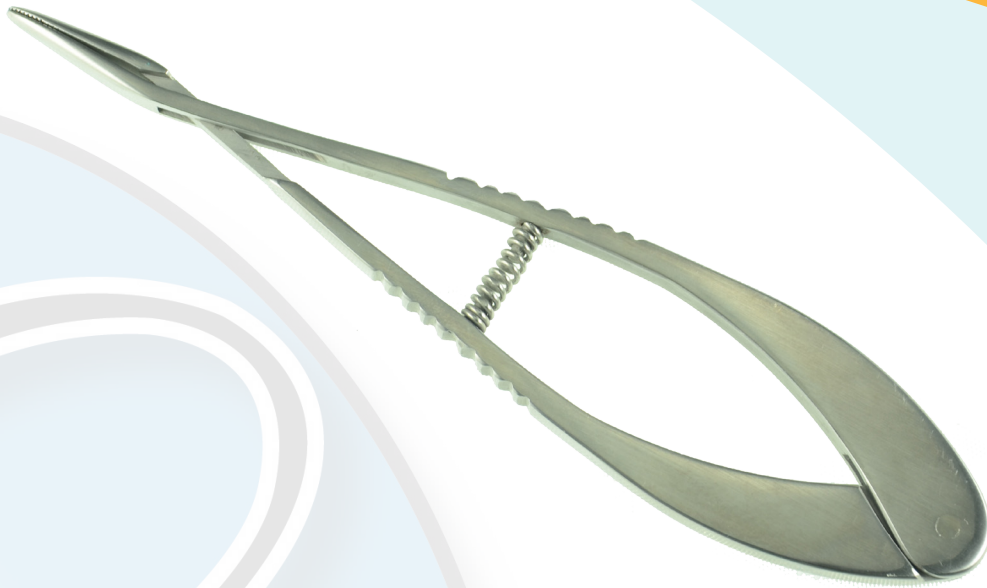

G28-115
Diamond Retractor 10cm

The **DIAMOND SURGICAL RETRACTOR** (patent pending) is designed to allow the surgeon to open the wound or surgical incision by pinching the ends of the retractor together. The retractor has several advantages as it is designed to hold tissue along the retractors blades as opposed to current surgical retractor designs which only hold tissue for a short segment within the surgical wound.

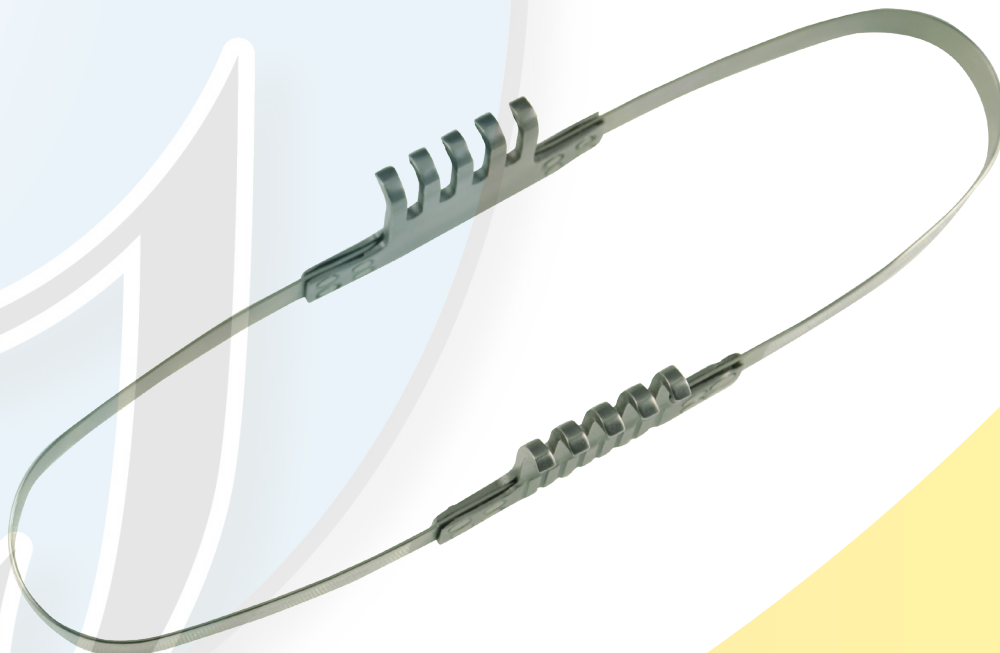

G27-17-55
NeoGrip Quick Release Chromosome Surgical Handle
Olsen Hegar Needle Holder 6 1/4"

The advantages the **NEOGrip/CHROMOSOME SURGICAL HANDLE** has over conventional surgical designs is the ability to efficiently grasp, maneuver and clamp tissues, objects and vessels. Surgical Instruments with the Neogrip/Chromosome Surgical Handle are ergonomically designed to be in line with the surgeons wrist and hand as they relate to the surgical site.

G28-300
PI Needle Holder

The advantages the **PI SURGICAL NEEDLE DRIVER** (patent pending) has over conventional surgical needle drivers is the ability to efficiently grasp needles and allow the surgeon to ergonomically suture wounds.

G28-200
Square Retractor

THE SQUARE SURGICAL RETRACTOR (patent pending) was designed for the surgeon to use a pinching force to close the retractor and allow for insertion into the wound or surgical incision.
